

GIFT WRAP

50"X50"

FOR NON-DECAL GIFT WRAP

For Gift Wrap that is not going to have decals/stickers place your artwork in the ARTWORK HERE layer. Before saving turn on/make visible the MASK layer so you see the white border around your artwork. Save your file as a JPG or as an EPS file.

FOR DECAL GIFT WRAP

Each decal within the print you must have a cut line drawn placed within the CUT LINES layer (cut lines found outside the CUT LINES layer may result in art charges). When saving out your file you must save the artwork file as an EPS file to preserve the cut lines layer. Do not save your cut lines within any other layer except the CUT LINES layer! Before saving turn on/make visible the MASK layer so you see the white border around your art. For best results we recommend the decals being larger than 2"x2".
